Our school has a lovely garden in front of the big playground. A fence encloses the garden. In the garden, there are many beautiful flowers like roses, sunflowers, jasmines and marigolds. A swarm of butterflies dances on the flowers. It makes the garden look very beautiful. There is a ditch near the corner of the garden. A group of frogs live there. Sometimes, we see a flock of birds sitting on the nearby trees, singing sweet songs. We take care of the garden regularly. On a selected day, students from each class work together to clean the garden. We use a set of gardening tools like spades, rakes, and sickles. We water the plants and remove the weeds regularly. We also add compost to the soil for making it fertile. The garden is full of plants and flowers. They give us joy and happiness. We love working in our school garden.

Jasimuddin was a famous Bangladeshi poet. He is known as "Palli Kabi" because his poems describe the beauty of the countryside and the simple life of rural people. He was born on 1 January, 1903 in the village of Tambulkhana in Faridpur. His father was a school teacher. Jasimuddin started writing poems when he was very young. His most famous poem is "Kabar" (The Grave). He wrote it while he was still a student at Calcutta University. People were amazed that a student could write such a beautiful poem. It was so popular that it was included in school textbooks while he was still alive. His most famous book is "Nakshi Kanthar Math". This book is so special that it has been translated into many different languages so people all over the world can read it. Jasimuddin loved the folk music and stories of Bangladesh. He spent much of his time traveling to villages to collect these traditional songs. He passed away on 14 March, 1976. We remember him every year for his great contribution to our literature.
